Yanjun He

Target: AIGC / AI Creative-Tool Operations Intern (Content / Creator Operations)

Shanghai • Class of 2027 (BA, in progress) • Available now · 5 days a week · 3+ months • Phone: 19921552388 •
Email: 2806660493@qq.com • Portfolio: chiwawafromkk.github.io

> Made AI short films and interactive works, and delivered a data workflow in a company setting. Seeking an AIGC content / creator operations internship.

EDUCATION

Shanghai Lixin University of Accounting and Finance — **BA, Administrative Management** — Sep 2023 – Jun 2027 (expected)

English: CET-6 550; CET-4 passed

Honors: First Prize, University-level Student Innovation and Entrepreneurship Project (generative AI campus study, team lead)

INTERNSHIP

Danaher (Shanghai) Enterprise Management Co., Ltd. (dispatched via Xindefu) — **Project Specialist, HR Digitalization** — Mar 2026 – Aug 2026

- **Employee master-data governance**: In a CDP master-data system covering 6,000+ employees in China, checked and updated master data for about 2,000 employees; worked with regional HR teams to chase missing or abnormal records and get files completed.
- **Batch record-filling workflow**: Designed and used a batch workflow (Copilot reads scanned forms, Power Automate looks up by employee ID and enters data, Excel holds the data); approved by company IT and my mentor, ran in the company environment, measured 400+ forms a day including manual review (about 100–200 a day by hand), and handed over to my mentor.
- **Data and reporting**: Used Excel to organize and analyze compliance and HR data and produce visual reports; recognized by the HRBP and invited to extend the internship.

CAMPUS

Shanghai Lixin University of Accounting and Finance • New Media Operations Department — **Member** — Sep 2023 – Jul 2025

- Wrote articles for the official WeChat account, and handled the student-information entry system and campus-card services.

Shanghai Lixin University of Accounting and Finance • Student Union — **Member** — Sep 2023 – Jul 2025

- Planned and organized the year-end event and other departmental events, coordinating resources to keep them moving.

PROJECTS & WORKS

MaisJeTaime (60-second AI short film) Page — **Script • sourcing • editing** — Sep 2026

- Wrote the script, chose the source material, decided the edit and generated the shots; GPT made the first frames, Kling / Jimeng (Seedance) turned images into video, and the edit ran on Python / ffmpeg scripts written with AI assistance. 23 clips generated, 22 used in the final cut, 1080p.

Jung × Me (short film + 3D star map + handbook) Page — **Theme • art direction • review** — Oct 2026

- Set the theme and direction, chose the painting-style reference and the Seedance-generated voice-over, and confirmed each item. Web film 49.7 s; 3D star map with 7 stations. Copy and development done by AI.

Stark Has a Warm Heart (an interactive work inspired by Iron Man) Page — **Direction • quality bar • review** — Oct 2026

- Set the direction and the quality bar (beat the reference video, with real texture), specified the content and reviewed over many rounds; 21 interactive objects and 10 art-style universes. Images made through Codex; development done by AI.

Personal Job Agent GitHub — **Product design • use • acceptance** — Aug 2026 – present

- Designed and accepted a Windows local-first job-search agent. Principle: cite only confirmed facts, and let the person decide on final submission. Front and back end built with AI coding tools such as Claude Code.

SKILLS

AI creation: GPT image generation, Kling, Jimeng (Seedance); Remotion, HyperFrames, local whisper (installed and tested).

Office & data: Excel (PivotTables, functions, charts); Python (Pandas, NumPy); SQL (basic); Microsoft 365 Copilot, Power Automate.

AI tools: ChatGPT, Claude Code, Gemini, Kimi, DeepSeek, GLM.
